01 INTRODUCCIÓN

Get to properly know a project is always a quite hard job to discover beforehand. Not a lot of clear information is displayed through the web.

Although it is always more interesting to discover things by oneself, we, from **ÁGORA CULTURAL**, understand that many questions go through your head about, for example who?, what?, where?, how?, etc....

We have tried, through this short guide, to answer common questions before you can decide whether willing or not take advantage of this great opportunity that will afford you interesting experiences! [at least we hope!].

PLEASE TAKE THE TIME TO CAREFULLY READ THE FOLLOWING LINES SINCE IT WILL HELPS FOR A CORRECT UNDERSTANDING!!

Getting started, so you know, **ÁGORA CULTURAL** [us!], is the Coordinating Organisation taking care of the practical, follow-up, support and training arrangements during your **VOLUNTEERING ACTIVITY** project. On the other side, you will participate as volunteer within a Host Organisation, here in your case at the **CENTRO OCUPACIONAL MUNICIPAL REQUENA (COM REQUENA)** who will be in charge of all the issues referring your volunteer activities [holidays, tasks, schedule, follow-up, support, etc...].

As a very quick view, **ÁGORA CULTURAL** has nearly 20 years experience in the field of European Mobility Projects [ERASMUS+, EUROPEAN SOLIDARITY CORPS, NATIONAL & INTERNATIONAL TRAININGS, STUDY & WORK INTERNSHIPS, etc...] acting as Coordinating Organisation. Among the different projects run, the **VOLUNTEERING ACTIVITIES** gets our utmost. We have been coordinating more than 500 host volunteering mobilities so far. It is very important for us that you enjoy this opportunity to live an immense and intense living and learning journey. We really need to underline some important points and really need you to know AND agree with all the logistical points to avoid any misunderstood once here.

So let me list or tell you about what we expect...

Our way of thinking about **VOLUNTEERING** is quite simple, being to share, to be a group...

02 HOST VENUE REQUENA

The rural world is not a "world apart", in fact, we must understand that, over the last few years, there has been a clear transformation of the concept.

In this sense, it should be noted that Requena is the most important nucleus of the Utiel-Requena region. It belongs to the province of Valencia within the Valencian Community. It is located 68km from its capital: Valencia. It has a population of around 21,000 inhabitants.

Its main economic activity is based on the cultivation of vines and the production of wine, and it is currently one of the municipalities with the largest area of vineyard cultivation and the largest wine production.

Requena's climate is Continental Mediterranean, with great temperature contrasts and rainfall, hot summers compared to coastal areas, but cool summer nights. Winters are significantly longer than on the coast and much colder. It is a territory with important natural resources of great beauty. It is located at the end of the Hoces de Cabriel Natural Park, between rivers and mountains, pine forests, fountains and springs. The possibilities for natural adventures are endless.

The City of Requena carries out an intense, rich and varied cultural activity for which a good part of its historical-artistic heritage has been destined to house it. Requena was an important strategic enclave during the Middle Ages. Its old town has been declared Property of Cultural Interest. The city of Requena has several museums of cultural and historical interest, caves and wineries, as well as hides magnificent architectural ensembles among its narrow streets.

It is important to reiterate that all activities, in which you will provide your support and effort, will be carried out with the advice and under the supervision of the professional staff of the **COM REQUENA**.

Always under the supervision of professionals and depending on the different workshops/programs, your support may include accompaniment of users in outside activities (especially those with greater needs).

In activities of leisure and free time and general activities, you will support professionals in monitor functions. You will work in both the preparation of the activities and the care of users with Intellectual Functional Diversity.

Outdoor activities will be planned (camping, hiking, tourism, etc...) in which you will get involved in helping Monitors in all the activities developed. These outings will take place on weekends or holidays recovering after days of rest.

The content of the activities can be modified depending on the schedule of activities (in activities during the weekend). You will receive a monthly programming of your daily activities, which must be approved by the Responsible of the **COM REQUENA**.

In addition, you will have a space to develop your own projects and ideas and will receive support from both the Coordinating Organisation **ÁGORA CULTURAL** and **COM REQUENA** to set them up.

06 WHAT CAN YOU EXPECT? WHAT DO WE EXPECT?

The Volunteer Project is a quality model for volunteers and its aim is to develop young people's solidarity, promote active citizenship and support young people's mutual understanding. A key element is the balance between offering a service to the Community and non-formal learning.

You will receive training and acquire new skills and competences as well as increase your European Awareness after this experience in another country.

In this way, taking part as volunteer in such a opportunity, you will:

- feel useful
- test your abilities
- learn from your surrounding
- improve your self-esteem and generosity
- become a change agent for a better world

Based on the interest shown and your needs, you will have the opportunity to propose and develop personal activities, thus being able to develop your creativity and entrepreneurial spirit and give your point of view on the different tasks to be carried out, such as being able to contribute new ideas that can enrich both you in your personal development and the users for whom the tasks are intended.

For us, it is important that volunteers have to be open-minded, without prejudice to participate in the activities. It is expected that the volunteers are motivated to learn about the Spanish culture and language. It is also desirable that the volunteers participate actively and have their own initiative, and an active and collaborative spirit. It will be essential that the volunteers are respectful and polite in their relationship with the professionals and users of the **COM REQUENA**.

You will pass the most time of your days with different people [target groups, professionals, local volunteers, etc...] who are anxious to know you, to show you who they are and what they can do, to teach you at very different level, to give you warmth and their confidence. The impact, you volunteer provoke is greater than you can expect. The exchange is primordial. You need to receive but also bring back. Participation, initiative, sense of responsibility and flexibility would be very grateful and welcomed.

From our part, we hope make you feel comfortable, empowered and enterprising.

All the persons involved in the project are always trying that you can reach your expectations always if you show the willingness to do so.

In general, volunteers will have to:

- + be aware of the nature of the target group of the activities (People with Functional Diversity), be related to or have an interest in the Functional Diversity sector
- + be flexible in the culture and way of life of Spain
- + be aware of the responsibilities when volunteering (involvement in the agreed and proposed activities)
- + be ready and accept the fact that you will have to share daily life tasks as you will be living together with other volunteers from countries other than your own

On a more personal note, we would like the volunteers to be able to:

- + be willing to offer their own experiences and learn new ones
- + if possible, have a sufficient level of Spanish to maintain a simple conversation or at least be eager to quickly learn the language
- + be open to a new way of living
- + be a collaborator
- + be respectful
- + be supportive
- + have initiatives
- + be flexible
- + have a desire to learn and collaborate
