

REJSBY EUROPEAN EFTERSKOLE

Description of the project

The school is located in the little village of Rejsby in Southern Denmark on the west coast of Jutland, just 5 km from Wadden Sea National Park and 45km from the German border.

Currently, the school has room for 139 students with a fairly equal balance between girls and boys. The students come from a variety of backgrounds both financially, socially and academically and all are welcome to apply to the school for the 9th or 10th grade. The students live and study at the school for one year only.

The students must understand that they will be living away from home for the best part of a year and are expected to participate in a small community, where teamwork is very important considering that the students live, work, clean and eat together at the school.

Volunteer profile

- over the age of 20
- motivated, adaptable and flexible
- previous experience working with children
- previous teaching experience is highly recommended
